Budapest, Hungary (relocation possible)

- Versatile and results-oriented Information Security Analyst.
- With a unique blend of technical expertise in risk assessment, security monitoring, and cloud security.
- Combined with 10+ years of experience in cross-cultural collaboration and customer support.
- Seeking a challenging role where I can leverage my diverse skill set and "can-do" attitude to enhance security posture.

Achievements

- Successfully transitioned into the IT industry through self-directed learning, mastering core technical skills (e.g., basics of coding, DBMS, web development) and presenting them, which directly led to securing my first role in tech without formal academic background in the field.
- Identified, isolated, and reported issue EDR solution, causing critical malfunction for JVM applications for 2 weeks.
- Blogging for knowledge sharing and evolving write-up capabilities successfully generated 1600 organic reaches in 1 year.

Certifications

Active Countermeasures Cyber Threat Hunting Training (D77e72a87da02ba1c40F7cb8deADaD11f949431d)	04.2023

Professional Experience

Liferay Hungary Kft   *2024 – present*
Information Security SOC Analyst

- Executed successful incident response, limiting a large-scale DDoS attack within 8 hours, significantly outperforming industry averages of 2–3 days.
- Automated CTI information resource aggregation from image files, reducing resolution time with 75% and backlog by 87%.
- Collaborating effectively with diverse stakeholders, providing expertise and facilitating communication to enhance security awareness and incident response.
- Successfully delivered a managed security service project for PaaS solutions, showcasing my ability to adapt to diverse environments and deliver impactful solutions.
- Enhanced team capabilities and improving workload distribution with mentoring 6+ colleagues in the last 6 months.
- Managed the implementation of passkey based MFA locally and globally, respectively, ~100 employees in 1 month and ~1000 employees in 3 months.

Liferay Hungary Kft   *2021 – 2024*
Customer Support Engineer

- Provided L2 support for enterprise customers using Liferay DXP and Liferay Experience Cloud.
- Configured Java web-based test environments with MySQL databases and Tomcat application servers.
- Investigated and reproduced reported issues, collaborating with technical engineers for resolutions.
- Monitored the bug-fixing process and facilitated knowledge sharing through documentation and training.

Contractor   *2011 – 2021*
Professional Dancer

- Mastered various dance styles and choreographies, performing professional shows.
- Developed strong situational improvisation skills and the ability to quickly adapt to new routines.
- Demonstrated ability to collaborate effectively with international teams and stakeholders, navigating diverse cultural landscapes.

Skills and Technologies

Endpoint Security, XDR, Cyber Threat Intelligence, OSINT, Cloud Security, Network Security, Google Cloud, CSPM, SIEM, Security Incident Response, Threat Hunting, Security Audits, Compliance, Zendesk, Jira, Confluence, Public Speaking

Languages

- Hungarian: Native
- English: Fluent C1 (written and spoken)   *2010 - present*
- German: Basic (written and spoken) - learning

Community Engagement

ISC2, TryHackMe, Google Cloud Community, Threat Hunter Community, Simply Cyber, Antisyphon Training, Black Hills Information Security, LetsDefend, Liferay

Education

Software Developer   *2020–2022*
Soter-Line Oktatási Központ
